TUESDAY DECEMBER, 12, 1899.

The reduction of the United States forces in Cuba has been begun, and very soon but a small force will remain to preserve the peace in an island as long as from New York to Chicago.

The deposits in the national banks of Kansas City reach the enormous aggregate of forty-three million dollars, an increase of nearly ten million dollars over the sum reported a year ago.

MICHIGAN will endeavor to have a law passed that will allow the use of convicts in the building and repairing of the state highways. Kentucky will have a similar act before its legislature.

The question of the endowment of an institution for the education of Sunday school teachers is now before the public. It is favored by church people in general, though no fund has yet materialized.

Tax Prescott Miner says that the second legislative assembly of Arizona met in Prescott on the 6th of December, 1895. Henry A. Bigelow was elected president of the council and James S. Giles speaker of the house.

If the government land is leased in Arizona, in a few years a few big cattle companies will control the public domain of the territory and actual settlers would have no rights that they would respect.

LAS VEGAS has a nine-year-old boy charged with murder. The Oitic case of the remarkable case that the utmost technical crime that could be charged against the boy would be assault and battery.

FRANCE has prohibited the sending of mourning envelopes through the mails. The order has created great dissatisfaction and the French post office is being deluged with letters of complaint over its enforcement.

"That will make two," says the Denver Post, referring to the fact that Oliver Cleveland is about to place a big windmill on his Princeton estate. Would the Post have us understand that Mr. Cleveland is the other windmill? If so, he is a very rusty one.

G. N. MAKING GOMEZ delivered a fine and brimstone oration in Havana on Monday. He declared that Cubans had fought for independence before and would fight again if necessary, and that next time they would sweep the island. It will not be necessary. Cubans will enjoy all the freedom that Americans enjoy and will not have to fight for it. The breath of freedom sweeps the island now.—El Paso Herald.

It is odd to notice how now one name then another will control the newspaper paragraphs. A few months ago every other paragraph in the editorial, in the telegraph and in the general stuff of a paper had Dreyfus' name in it. Today Dreyfus is forgotten, but one finds Roberts' name—Roberts of Utah—on every page from the telegraph through the editorial and out the joke column.—El Paso Herald.

A BATTLE lasting fourteen hours with a casualty on the British side of 475, of which seventy-nine were killed, was telegraphed by General Methuen as the bloodiest battle of the century. During the civil war in this country such a battle would have been classed as a skirmish. In many of the principal battles of that war the casualties ran away up in the thousands, the loss at Gettysburg being 64,000, and at Shiloh on both sides 22,000.

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes:

"I could see no improvement whatever, though I was constantly treated with sprays and washes, and different inhaling remedies. In fact, I could feel that each winter I was worse than the year previous. Finally it was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S., and after a few bottles were used, I noticed a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S. S. S., a remedy that can reach the disease and cure it."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases, and other remedies have no effect whatever upon it. It promptly reaches Catarrh, and never fails to cure even the most aggravated cases.

COPPER IS THE METAL.

The Cochise Copper Mining Company Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1898, and the net proceeds of such production as reported to have been over \$2,000,000. It has been said by experienced miners who have been under its employment for years, that the Queen mine now has sufficient ore in sight to keep in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
